

EmTech® 8800 WATERBORNE UNIVERSAL SEALER

Interior/Exterior Grade Wood & Concrete Sealer

OUT-PERFORMS ALL NATIONAL & REGIONAL VOC REGULATIONS

No NMP, No Hydrazine = California Prop. 65 Compliant

(LEED CREDIT CODES: EQ4.1, EQ4.2, EQ4.5)

Part # 8800C, 8800W, 8800B

EmTech® 8800 Universal Waterborne Sealer is a high solids, high build polyester urethane sealer for natural veneer, engineered paneling and solid stock wood substrates used in fine furniture construction, residential and commercial architectural finishing and yacht interior applications. EmTech 8800 provides excellent color tone generation and depth-of-image, well suited for high-end applications. Formulated utilizing our exclusive Hybrid Emulsion Technologies with UV stabilizers and non-yellowing resins, EmTech 8800 is a premium foundation for use with any water-based clear coat or paint system.

EmTech 8800 Universal Sealer features ultra-low VOC's and HAPS-Free emissions in a water clean-up formula. Can be sanded and re-coated within 1 hour at ambient temperature (70°F).

Physical Specifications

Weight per Gallon: 8.6 lbs.

Viscosity: 40 seconds, Zahns #2

Percent Solids: 35%NV

VOC grams/liter: 42.0

Coverage @ 2 mils: 500 sq.ft., Average

HAPS Content: 0

Flash Point: Non-Combustible

Freeze/Thaw Cycles: 3 Pass

Color: Clear

Recommended Mil Thickness: 2-3 mils Wet

Heat Cure Temp: 120-140°F

Method of Application: Spray /Brush
