

## Water-Based Stains

Emtech® NR4000 (NR for Natural Resin) is made with a renewable resource, plant-based resin compound that offers ultra-low VOC emissions and is 100% biodegradable. The NR4000 base contains no hydrocarbon or ethylene-based solvents, making it non-combustible and HAPs-Free. Due to the very small particle size of this unique resin structure, the NR4000 base allows for 100% color transparency in the dye stain versions, as well as excellent wetting and color transfer to the substrate when dye and pigment colorants are used to create translucent colors.

### Emtech® NR4000 Stains Feature

- Extensive Color Palette to Choose From
- Clear Base Option for Custom Tinting
- Water Clean-Up
- Non-Flammable

## Who We Are

Target Coatings is a full-line manufacturer of Ultra-Low VOC/HAPs-Free waterborne finishes for the artisanal fabricator, professional finisher and DIY woodworker who seeks a modern, high-performance waterborne wood finishing system with the traditional look, feel and long-term performance qualities of solvent-based finishes. Emtech® brand finishes are made with the highest quality resins and additives to provide you the best performance, ease of use and protective beauty you and your project deserve.

We are committed to ensuring that all of our formulas offer the lowest environmental and workplace impact possible. Environmental Stewardship guides our policy in the creation of new products for the wood finishing industry. We develop each of our waterborne formulas to meet and exceed federal and state clean air regulations.

### Our Product Line Includes

- Clear Wood Sealers & Grain Fillers
- Clear Lacquers, Varnishes & Urethanes
- Pigmented Lacquers & Primers
- Wiping Stains & Tint Bases

### Our Products Feature

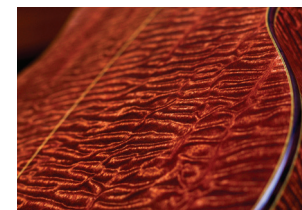

- Easy Application with Spray or Brush
- Traditional Look & Feel with Modern Performance
- Ultra-Low VOC/HAPs Free Technology
- Non-Hazardous / Non-Flammable Properties
- Water Clean-Up

WATER-BASED COATINGS FOR A CHANGING WORLD

## Water-Based Lacquer, Varnishes & Urethanes

The Emtech® line of water-based lacquers, varnishes and urethanes is formulated to offer a full suite of clear coat options that focus on the specific qualities and functions of the surface that is being finished. Whether you are finishing a table top, kitchen cabinets, architectural features or a custom-made work of art, our clear topcoats will provide the correct level of protection and durability you expect.

### Emtech® Clear Coats Include

- EM2000wvx Waterborne Alkyd Varnish
- EM6000 Production Lacquer
- EM7000HBL High Build Lacquer
- EM8000cv Conversion Varnish
- EM9300 Exterior Polycarbonate Urethane

### Emtech® Clear Coats Feature

- 100% Burn-In Performance
- Ultra-Low VOC/HAPs-Free
- Emissions Standards
- Non-Yellowing & Traditional
- Amber Film Clarity
- Fast Dry Time & Water Clean Up

## Water-Based Sealers & Primers

Target Coatings takes a different approach to wood sealers and primers. Our EM1000 Universal Sanding Sealer is an ultra-clear acrylic that offers versatility as both a clear coat and as a color vehicle. Our HSF5000 Primer/Surfacer/Filler is specifically formulated for use on MDF, birch, poplar and maple substrates prior to applying a color coat.

### Emtech® Sealers & Primers Include

- EM1000 Universal Sanding Sealer
- HSF5000 Primer/Surfacer/Filler

### Emtech® Sealers & Primers Feature

- Rich Color Reaction & Tone
- Easy Sanding & Fast Re-Coat Time
- Water-Based Topcoat Compatible
- Non-Hazardous
- Non-Flammable

## Water-Based Pigmented Lacquers

Emtech® water-based pigmented lacquers are designed specifically for use on interior cabinetry and millwork where a rainbow of color options is required. EM6500 Pigmented Lacquer is available in Pastel Base, Midtone Base, Deep Base and Clear Base—allowing for any color to be matched with water based UTC or Zero-VOC tinting systems. Also, we will custom tint EM6500 in our color lab to match any color or your favorite Benjamin Moore®, Sherwin Williams®, and Farrow & Ball colors at no extra charge.

### Emtech® Pigmented Lacquers Include

- EM6500 Pigmented Lacquer Series

### Emtech® Pigmented Lacquers Feature

- Four Tint Base Options
- Topcoat Rated for Kitchen Cabinet Use
- Durable Satin Sheen
- Fast Dry Time & Water Clean Up
- Free Custom Color Matching
